

Gabb Road – Proposed Traffic Calming Survey

A proposed strategy to implement traffic calming measures on Gabb Road has been developed by the Local Road Safety Committee (LRSC). The proposed measures are intended to address and mitigate traffic issues discussed at the Neighborhood Information Sessions held on August 24, 2022 and February 23, 2023.

Enclosed you will find a concept plan showing an overview of the proposed traffic calming measures. Also enclosed, please find a resident survey form regarding the proposed traffic calming measures. The responses to this survey will be used to gauge appropriate stakeholder support for the strategy.

A fillable PDF version of the survey and additional information on the Traffic Calming Program are posted on the LRSC page of the Town website linked below:

<https://www.bloomfieldct.gov/local-road-safety-committee>

Survey responses may be either mailed to the Engineering Division at the address provided on the survey form or they may be emailed to engineers@bloomfieldct.org

Please send survey responses by March 31, 2023.

If you have an opinion on the proposed traffic calming measures and how they may impact traffic, noise, your commutes, or other matters, it is important that you respond to this survey. In order for the strategy to proceed towards implementation:

- Greater than 50% of the benefitting properties* must respond in support of the measure
- Not greater than 50% of the interested properties* may respond in non-support of the measure

*For purposes of evaluating the survey results, the “benefitting properties” are those properties that directly front on the street (or portion of street) where the traffic calming measures are proposed. The “interested properties” include the benefitting properties plus other nearby properties for which it is deemed that residents are likely to use the street where the traffic calming measures are proposed as a primary access route.

Please note that no more than one survey response will be counted for any property. To be counted, the survey response must be deemed to represent the opinion of all of the record owners of the property. The survey form must also be completed in full in order to be counted. The determination of if any survey response qualifies to be counted rests solely with the LRSC. **Renters** may respond if they receive proper authorization from the owner(s) of the property they reside at.

If you have any questions, please contact Sarah Cote, Deputy Town Engineer at 860-769-3573 or via email at scote@bloomfieldct.org

Sincerely,

Local Road Safety Committee
